AUDITOR'S REVIEW REPORT ON INTERIM FINANCIAL INFORMATION

(Convenience translation of the independent auditor's review report originally issued in Turkish, See Note I of Section Three)

To the Board of Directors of Ziraat Katılım Bankası A.Ş.;

Introduction

We have reviewed the consolidated balance sheet of Ziraat Katılım Bankası A.Ş. ("the Bank") at 30 September 2016 and the related consolidated income statement, consolidated statement of income and expense items under shareholders' equity, consolidated statement of changes in shareholders' equity, consolidated statement of cash flows and a summary of significant accounting policies and other explanatory notes to the consolidated financial statements for the nine-month-period then ended. The Bank Management is responsible for the preparation and fair presentation of interim financial statements in accordance with the "Banking Regulation and Supervision Agency ("BRSA") Accounting and Reporting Legislation" which includes "Regulation on Accounting Applications for Banks and Safeguarding of Documents" published in the Official Gazette no.26333 dated 1 November 2006, and other regulations on accounting records of Banks published by Banking Regulation and Supervision Agency and circulars and interpretations published by BRSA and Turkish Accounting Standard 34 "Interim Financial Reporting" for those matters not regulated by the aforementioned legislations. Our responsibility is to express a conclusion on these interim financial statements based on our review.

Scope of Review

We conducted our review in accordance with the Standard on Review Engagements (SRE) 2410, "Limited Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial information consists of making inquiries, primarily of persons responsible for financial reporting process, and applying analytical and other review procedures. A review of interim financial information is substantially less in scope than an independent audit performed in accordance with the Independent Auditing Standards and the objective of which is to express an opinion on the financial statements. Consequently, a review of the interim financial information does not provide assurance that the audit firm will be aware of all significant matters which would have been identified in an audit. Accordingly, we do not express an opinion.

Conclusion

Based on our review nothing has come to our attention that causes us to believe that the accompanying consolidated financial statements do not give a true view of the financial position of Ziraat Katılım Bankası A.Ş. at 30 September 2016 and of the results of its operations and its cash flows for the nine-month-period then ended in all aspects in accordance with the BRSA Accounting and Reporting Legislation.

Report on other regulatory requirements arising from legislation

Based on our review, nothing has come to our attention that causes us to believe that the financial information provided in the accompanying interim activity report in Section Eight, is not consistent with the reviewed consolidated financial statements and disclosures in all material respects.

Additional Paragraph for Convenience Translation:

The effects of differences between accounting principles and standards explained in detail in Section Three and accounting principles generally accepted in countries in which the accompanying consolidated financial statements are to be distributed and International Financial Reporting Standards ("IFRS") have not been quantified in the accompanying consolidated financial statements. Accordingly, the accompanying consolidated financial statements are not intended to present the financial position, results of operations and changes in financial position and cash flows in accordance with the accounting principles generally accepted in such countries and IFRS.

(Unless otherwise stated amounts are expressed in thousands of Turkish Lira ("TL").)

GENERAL INFORMATION ABOUT THE GROUP (Continued)

V. EXPLANATIONS OF THE PARENT BANK'S SERVICES AND FIELD OF OPERATIONS:

Operation field of the Parent Bank was declared in the prime contract within the scope of Banking Law and other legislation codes. The bank collects funds with the scope of Banking Principles and provide all type of cash, non-cash funds within the scope of Islamic banking principles in any case. Moreover, the Bank operates it's participation banking operations to the extent permitted by the Legal Code, for the benefit of the society within the principles of the participation banking such as for the purpose of society.

Parent Bank sorts out participation accounts discretely from the other accounts in its account records in terms of their maturity. Participation accounts are opened in 5 maturity groups as maturity to one month, maturity to three months (three months included), maturity to six months (six months included), maturity to one year (one year included) and maturity to one year or more (with dividend payment of one month,three months, six months and annually).

Bank can determine the rates of participating in profit and loss by operating participation accounts discretely as of currency type, amount and maturity groups but participation rate to loss can not be less than 50% of participation rate to profit.

Parent Bank branches provides Islamic insurance within the principles of participation banking (takaful insurance) as an agent of Ziraat Hayat ve Emeklilik A.Ş. and Ziraat Sigorta A.Ş. to their client.

The Parent Bank and subsidiaries consolidated with the Parent Bank are together referred as the "Group".

As of 30 September 2016, Group operates with 627 workers.

VI. DIFFERENCES BETWEEN THE COMMUNIQUE ON PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS OF BANKS AND TURKISH ACCOUNTING STANDARDS AND SHORT EXPLANATION ABOUT THE ENTITIES SUBJECT TO FULL CONSOLIDATION OR PROPORTIONAL CONSOLIDATION AND ENTITIES WHICH ARE DEDUCTED FROM EQUITY OR ENTITIES WHICH ARE NOT INCLUDED IN THESE THREE METHODS

There is no difference for Ziraat Katılım Bank from consolidated financial statements of Banks and Turkish Accounting Standarts. Bank's subsidiary Ziraat Katılım Varlık Kiralama A.Ş is consolidated within the scope of full consolidation.

VII. EXISTING OR POTENTIAL, ACTUAL OR LEGAL OBSTACLES TO IMMEDIATE TRANSFER OF SHAREHOLDER'S EQUITY OR REPAYMENT OF DEBT BETWEEN THE PARENT BANK AND ITS SUBSIDIARIES

None.

**ZİRAAT KATILIM BANKASI A.Ş.
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE PERIOD OF 1 JANUARY - 30 SEPTEMBER 2016**

(Unless otherwise stated amounts are expressed in thousands of Turkish Lira ("TL").)

SECTION THREE

ACCOUNTING PRINCIPLES

I. EXPLANATIONS ON BASIS OF PRESENTATION

The consolidated financial statements are prepared within the scope of the "Regulation on Accounting Applications for Banks and Safeguarding of Documents" related with Banking Law numbered 5411 published in the Official Gazette no. 26333 dated 1 November 2006 and other regulations related to reporting principles on accounting records of Banks published by Banking Regulation and Supervision Agency and circulars and interpretations published by Banking Regulation and Supervision Authority (together referred as BRSA Accounting and Reporting Legislation) and in case where a specific regulation is not made by BRSA, Turkish Accounting Standards, within the scope of interim reporting Turkish Accounting Standards 34 and Turkish Financial Reporting Standards ("TFRS") and related appendices and interpretations (referred as "Turkish Accounting Standards" or "TAS") put into effect by Public Oversight Accounting and Auditing Standards Authority ("POA") ("all referred as BRSA Principles").

The format and content of the publicly announced consolidated financial statements and notes to these statements have been prepared in accordance with the "Communiqué on Publicly Announced Financial Statements, Explanations and Notes to These Financial Statements", published in Official Gazette no. 28337, dated 28 June 2012, and amendments to this Communiqué. The Bank maintains its books in Turkish Lira in accordance with the Banking Law, Turkish Commercial Code and Turkish Tax Legislation.

Hence Ziraat Varlık Kiralama A.Ş. was founded in the recent year, consolidated financial statements and related footnote could not be given comparatively. In the upcoming periods related tables and notes will be given comparably.

Unless otherwise specified, all balances in the financial statements and footnotes are expressed in thousand Turkish Lira ("TL").

The preparation of consolidated financial statements requires the use of certain critical estimates on assets and liabilities reported as of balance sheet date or amount of contingent assets and liabilities explained and amount of income and expenses occurred in related period. Although these estimates rely on the management's best judgment, actual results can vary from these estimates. Judgements and estimates are explained in related notes.

The accounting policies and valuation principles applied in the preparation of these consolidated financial statements are defined and applied in accordance with TAS. Those accounting policies and valuation principles are explained in Notes II. to XXIV.

Additional paragraph for convenience translation into English:

The differences between accounting principles, as described in the preceding paragraphs, and accounting principles generally accepted in countries in which the accompanying consolidated financial statements are to be distributed and International Financial Reporting Standards ("IFRS") have not been quantified in the accompanying consolidated financial statements. Accordingly, these consolidated financial statements are not intended to present the financial position, results of operations and changes in financial position and cash flows in accordance with the accounting principles generally accepted in such countries and IFRS.

II. EXPLANATIONS ON USAGE STRATEGY OF FINANCIAL ASSETS AND FOREIGN CURRENCY TRANSACTIONS

The Parent Bank's main field of operations are; to provide all kinds of domestic and foreign currency cash, non-cash loans, make transactions in domestic and foreign capital markets, collect current and participation accounts. As of reporting date, an important part of Parent Bank resources consists of shareholders equity. Bank evaluates its resources with commodity transactions, lease certificates and credits in high-yield and short-term. The Parent Bank's liquidity position considered as defraying all the maturing liabilities.

**ZİRAAT KATILIM BANKASI A.Ş.
NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE PERIOD OF 1 JANUARY - 30 SEPTEMBER 2016**

(Unless otherwise stated amounts are expressed in thousands of Turkish Lira ("TL").)

ACCOUNTING PRINCIPLES (Continued)

II. EXPLANATIONS ON USAGE STRATEGY OF FINANCIAL ASSETS AND FOREIGN CURRENCY TRANSACTIONS (Continued)

The procedures including foreign currency were recorded based on the buying rate of the counter ruling at the transaction date. Foreign currency denominated monetary assets and liabilities are valued with the period end exchange rates announced by the Central Bank of Turkey converting them into Turkish Lira and valuation differences of foreign currencies have been recognized in the income statement under the net foreign exchange income/expense account.

The Parent Bank is monitoring risks of liquidated receivables, doubtful fees, commission and other receivables with loans have the characteristics of loss and participation accounts make loan available risk belong to bank that are monitored in other receivables accounts with equities and make loans available special current accounts that are foreign currency and balance receivables, on the date of transition exchange to TL. Foreign currency credits make loans that are participation accounts and foreign exchange loans, risk that is belong to participation accounts appreciate with current accounts to exchange differences monitoring on the foreign exchange transactions profit or loss.

The foreign currency exchange differences resulting from the translation of debt securities issued and monetary financial instruments are reflected in the income statement. There are no foreign currency differences capitalized by the Bank.

III. EXPLANATIONS ON INVESTMENTS IN ASSOCIATES, SUBSIDIARIES AND JOINT VENTURES

a. Consolidation principles applied:

The consolidated financial statements have been prepared in accordance with the procedures listed in the "Communiqués related to the Regulation on the Preparation of the Consolidated Financial Statements of Banks" published in the Official Gazette No. 26340 dated 8 November 2006 and the "Consolidated Financial Statements" ("TFRS 10").

1. Consolidation principles for subsidiaries:

Subsidiaries (including special purpose entity) are all entities, in which the Group has power to control the financial and operating policies for the benefit of the Parent Bank, either (a) through the power to exercise more than 50% of the voting rights relating to shares in the companies owned directly and indirectly by itself; or (b) although not having the power to exercise more than 50% of the using rights, otherwise having the power to exercise control over the financial and operating policies.

Control is evident when the Parent Bank owns, either directly or indirectly, the majority of the share capital of the company or owns the privileged shares or owns the right of controlling the operations of the company in accordance with the agreements made with other shareholders or owns the right of appointment or the designation of the majority of the board of directors of the company.

Subsidiaries are consolidated with full consolidation method by considering the outcomes of their activities and the size of their assets and shareholders' equity in scope of the materiality principle. Financial statements of the related subsidiaries are included in the consolidated financial statements beginning from the date control on their activities are transferred to the Group. Where necessary, accounting policies of subsidiaries have been changed to ensure consistency with the policies adopted by the Group.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE PERIOD OF 1 JANUARY - 30 SEPTEMBER 2016**

(Unless otherwise stated amounts are expressed in thousands of Turkish Lira ("TL").)

ACCOUNTING PRINCIPLES (Continued)

III. EXPLANATIONS ON INVESTMENTS IN ASSOCIATES, SUBSIDIARIES AND JOINT VENTURES (Continued)

In accordance with the full consolidation method, balance sheet, income statement and off balance sheet items of the subsidiaries have been consolidated line by line with the balance sheet, income statement and off balance sheet of the Parent Bank. The book value of the investments of the Group in each subsidiary has been netted off with the portion of each subsidiary's capital that belongs to the Group. Unrealized gains and losses and balances resulting from the transactions among the subsidiaries included in consolidation have been eliminated. In order to determine the net income of the Group, minority shares in the net income of the consolidated subsidiaries have been identified and deducted from the net income of the subsidiary.

The subsidiaries included in consolidation, their title, their place of incorporation, their main activities and their effective shareholding rates are as follows:

Title	Address (City / Country)	Main Activities	30 September 2016	
			Parent Bank's Share Percentage (%)	Parent Bank's Risk Group Share Percentage (%)
Ziraat Katılım Varlık Kiralama A.Ş.	Istanbul/Turkey	Rent Certificate Issue	100	100

Ziraat Katılım Varlık Kiralama A.Ş. was established and registered to the trade registry in January 22, 2016 with the permission taken from "Banking Regulation and Supervision Agency" and "Capital Markets Board of Turkey". Ziraat Katılım Varlık Kiralama A.Ş. has been founded to operate lease certificate according to rulings of Capital Markets Board of Turkey which was dated 07.06.2013 and numbered 28760 serial: 3 no: 61.1 published in Official Gazette.

2. Consolidation principles of associates and joint ventures:

An Associate is a partnership with which the Parent Bank participates in its capital and has significant effect on it although it has no capital or management control, whose main operation is banking and which operates according to special legislation with permission and license and is established abroad. The related associate is consolidated with equity method in accordance with materiality principle.

Significant effect refers to the participation power on the constitution of the financial and management policies of the participated associate. If the Parent Bank has 10% or more voting right on the associate, as long as it is not proved otherwise, it will be accepted that the Parent Bank has significant effect on that associate.

Equity method is an accounting method which foresees the increase or decrease of the book value of capital share in an associate from the changed amount in the associate participating shareholder's equity during the period by the portion of the participant and the deduction of the dividend from the associate from the changed value of the associate amount.

As of the date of 30 September 2016, there is no jointly controlled subsidiaries.

ACCOUNTING PRINCIPLES (Continued)

III. EXPLANATIONS ON INVESTMENTS IN ASSOCIATES, SUBSIDIARIES AND JOINT VENTURES (Continued)

3. Principles applied during share transfer, merger and acquisition: None.

4. Transactions with minority shareholders: None.

b. Presentation of unconsolidated subsidiaries and associates in consolidated financial statements:

Turkish lira denominated unconsolidated associates and subsidiaries are booked at cost value, less any impairment if any, in accordance with "Consolidated Financial Statements" ("TFRS 10") are recognized in the consolidated financial statements.

When the cost of investments, associates and share certificates which are classified under available for sale portfolio is higher than the net realizable value, the carrying amount is reduced to the net realizable or fair value if any, considering whether the value decrease is temporary or permanent and the ratio of the value decrease.

There is no subsidiaries and associates within the scope of The Parent's Bank consolidation.

IV. EXPLANATIONS ON FORWARD AND OPTION CONTRACTS AND DERIVATIVE INSTRUMENTS

The Parent Bank's derivative financial instruments consist of forward foreign currency buy/sell agreements.

The Parent Bank's derivative transactions mostly include currency and precious metal swaps and foreign currency forward contracts in line with TAS 39 "Financial Instruments: Recognition and Measurement". The Bank has no embedded derivative instruments separated from the articles of association.

Derivative instruments are recognized at fair value on contractual date and subsequently re-valued at their fair values and associated with the income statement. If the fair value of derivative financial instruments is positive, it is disclosed under the main account "Financial Assets at Fair Value Through Profit or Loss" in "Trading Derivative Financial Assets" and if the fair value difference is negative, it is disclosed under "Financial Liabilities at Fair Value Through Profit or Loss" in "Trading Derivative Financial Liabilities". Fair value changes are recorded under "Derivative Financial Transactions Gains/Losses" in income statement.

The payables and receivables arising from derivative transactions are recorded in off-balance sheet accounts at their agreement amounts.

ACCOUNTING PRINCIPLES (Continued)

V. EXPLANATIONS ON PROFIT SHARE INCOME AND EXPENSE

Profit share income and expenses are recognized on an accrual basis using the internal rate of return method in conformity with TAS 39 "Financial Instruments: Recognition and Measurement". In accordance with the Communiqué on "Methods and Principles on Determining the Nature of Loans and Other Receivables and Allocation of Provisions" came into force after being published in the Official Gazette numbered 26333 dated 1 November 2006, no profit share income accrual is calculated for non-performing loans. Realized profit share accruals calculated for non-performing loans and recognized as income are reversed and profit share income related to these loans is recognized as profit only when collected.

The Parent Bank calculates expense accrual in accordance with the unit value calculation method on sharing accounts and reflects these amounts in "Funds Collected" account on the balance sheet.

VI. EXPLANATIONS ON FEES AND COMMISSION INCOME AND EXPENSES

Commission income from banking, agency, intermediary services is recognized as income on the date collected. Whereas, commission income from individual, corporate and entrepreneurial cash and non-cash loans are recognized on an accrual basis by using internal rate of return method and transferred to the income statement in accordance with the matching principle. Other fees and commission expenses are recorded as expense on the date they are paid.

Commissions and fees received from cash loans and relating to the future periods are recorded to the "Unearned Revenues" account under "Other Liabilities" on the balance sheet.

VII. EXPLANATIONS ON FINANCIAL ASSETS

Financial instruments comprise financial assets and liabilities and derivative instruments. Financial assets mainly constitute the parent bank's commercial activities and operations. Sales and purchase transactions of financial assets are accounted for using the settlement date basis and financial assets are classified as investments held-to-maturity, loans and receivables, financial assets available for sale or held-for-trading at initial recognition.

a. Financial assets at fair value through profit or loss:

Financial assets at fair value through profit or loss have two sub categories: "trading financial assets" and "financial assets through at fair value through profit/loss at initial recognition".

Trading financial assets either acquired for generating profit from short-term fluctuations in the price or dealer's margin, are the financial assets included in a portfolio in which a pattern of short-term profit making exists independent from the acquisition purpose.

Financial assets held for trading are initially recognized at transaction prices which are assumed to reflect the fair value and subsequently measured at fair value. Gain or loss resulted from valuation of these financial assets are transferred to profit or loss accounts.

The Parent Bank has no financial assets at fair value through profit or loss other than trading financial assets.

FOR THE PERIOD OF 1 JANUARY - 30 SEPTEMBER 2016**

(Unless otherwise stated amounts are expressed in thousands of Turkish Lira ("TL").)

ACCOUNTING PRINCIPLES (Continued)

VII. EXPLANATIONS ON FINANCIAL ASSETS (Continued)

b. Financial assets available for sale:

Available-for-sale financial assets refer to financial assets other than the ones classified as "loans and receivables", "held-to-maturity assets" or "financial assets at fair value through profit or loss".

Available for sale assets are initially recognized at cost value. The cost of the securities is recognized as fair value.

Available-for-sale financial assets are subsequently re-measured at fair value in financial statements.

The difference between fair value and cost of available for sale financial assets is booked as profit share income accrual or impairment provision. Furthermore, amortized cost using the internal rate of return method and cost value is compared and the difference is booked as profit share income or impairment expense. Fair value and amortized cost of these securities are compared and the difference is recognized in shareholders' equity as "Marketable Securities Value Increase Fund". When these financial assets are disposed of or impaired the related fair value differences accumulated in the shareholders' equity are transferred to the income statement.

When there is no price quotation in an active market for price formations to constitute the basis of the fair value or in such a situation when the reasonable value is not measured confidentially; the fair value of the available-for-sale financial assets are carried at amortised cost using the internal rate of return method or appropriate valuation methods.

c. Loans and receivables:

Bank loans and receivables represent financial other than those held for trading or held for sale in a short period are not derivative financial instruments.

Loans and receivables are initially recognized at cost, and subsequently recognized at the amortized cost calculated using the internal rate of return method. Individual and corporate loans tracked in cash loans are recognized at their original amounts according to Uniform Chart of Accounts (UCA) and accounts determined in its prospects in line with their content.

Foreign currency indexed retail and commercial loans are converted to Turkish Lira at the rate on the lending date and they are followed under Turkish Lira ("TL") accounts. Repayment amounts are calculated at the exchange rate on the repayment date and the foreign exchange differences are reflected in the profit/loss accounts.

d. Held to maturity financial assets:

Investments held to maturity are composed of financial assets that holding with keeping intention until maturity with the fulfilled relevant conditions and have fixed or determinable payments and fixed maturity other than loans and receivables.

Investments held to maturity are subsequently measured at amortized cost with internal rate of return, and they are accounted in the profit and loss table as profit share income gained by securities.

Held to maturity assets are initially recognized at cost value.

(Unless otherwise stated amounts are expressed in thousands of Turkish Lira ("TL").)

ACCOUNTING PRINCIPLES (Continued)

VIII. EXPLANATIONS ON IMPAIRMENT OF FINANCIAL ASSETS

A financial asset or a group of financial assets is subject to impairment loss only if there is an objective indication that the occurrence of one or more than one event ("loss event") subsequent to the initial recognition of that asset has an effect on the reliable estimate of the expected future cash flows of the related financial asset and asset group.

If revalued amounts of financial assets at fair value through profit/loss is less than the prior revalued amounts, initially, value of prior records regarding the value increase are adjusted according to the recent value and if the impairment loss is more than the prior value increase, difference is reflected to "Impairment Expense for Marketable Securities". If there is an increase in value, initially recognized impairment loss is reversed.

If financial assets available for sale are subject to permanent impairment, the amount is charged to "Impairment Expense for Marketable Securities" account in accordance with the related Turkish Accounting Standard.

Loans and other receivables are classified and make provisions and specific provisions in accordance with the Communiqué on "Methods and Principles on Determining the Nature of Loans, Other Receivables, and Allocation of Provisions" published in the Official Gazette numbered 26333 and dated 1 November 2006.

The provisions released in the same year are accounted by crediting the provision expenses account and the released parts of the previous years' provisions are recorded to the "collections from prior years expense" account.

IX. EXPLANATIONS ON OFFSETTING OF FINANCIAL ASSETS AND LIABILITIES

Financial assets and liabilities shall be offset and the net amount presented in the balance sheet when, and only when the Bank currently has a legally enforceable right to set off the recognized amounts or intends either to collect/settle on a net basis or to realize the asset and settle the liability simultaneously.

X. EXPLANATIONS ON SALES AND REPURCHASE AGREEMENTS AND LENDING OF SECURITIES

As of the balance sheet date, there are no securities lending transactions. Central Bank of the Republic of Turkey ("CBRT") made some changes on orders for open market transactions ("OMT") and prepared an additional frame contract for participation banks in order to present rent certificates to open market operations of CBRT in accordance with the principles of participation banks. According to this agreement; a new type of transaction was formed which enables participation banks to resell or repurchase rent certificates on their portfolio to CBRT when they are in need of funding or in attempt to evaluate the excess liquidity. The Bank performs purchase tenders which are held by CBRT of which maturities are weekly; in return for rent certificates that are reported as assets in balance sheet in order to raise funds.

FOR THE PERIOD OF 1 JANUARY - 30 SEPTEMBER 2016**

(Unless otherwise stated amounts are expressed in thousands of Turkish Lira ("TL").)

ACCOUNTING PRINCIPLES (Continued)

**XI. INFORMATIONS ON ASSETS HELD FOR SALE AND DISCONTINUED OPERATIONS
AND EXPLANATIONS ON LIABILITIES RELATED WITH THESE ASSETS**

Tangible assets acquired in consideration of receivables are accounted in accordance with the requirements of the Communiqué on "Methods, Principles for Purchase and Sale of Precious Metal and Sale of Goods and Immovables obtained in Return of Receivables" published in the Official Gazette numbered 26333 and dated 1 November 2006 and these assets are subject to revaluation by no means. Fixed assets resulted from the Bank's receivables reflected in the held for sale account if they have concrete selling plan.

Assets which meet the criteria to be classified as held for sale are measured by the book value or the fair value from which the cost of sales is deducted, whichever is lower and no more amortization is made for such assets; and these assets are shown separately on the balance sheet. In order to classify an asset as an held for sale, the related asset (or the group of assets to be disposed of) should be able to be sold immediately and the probability of sale for such assets (or group of assets to be disposed of), should be high under current conditions.

A discontinued operation is a part of a parent bank's business classified as sold or held-for-sale. The results of the discontinued operations are disclosed separately in the income statement.

As of the 30 September 2016, the Parent Bank has no assets held for sale and tangibles corresponding discontinuing operations.

XII. EXPLANATIONS ON GOODWILL AND OTHER INTANGIBLE ASSETS

As of the balance sheet date, the parent bank has no goodwill within the financial statements.

Other intangible assets are measured at cost on initial recognition and any directly attributable costs of setting the asset to work for its intended use are included in the initial measurement. Subsequently, intangible assets are carried at historical costs after the deduction of accumulated depreciation and the provision for value decreases.

Other intangible assets are amortized by using the straight line method based on their useful life. Useful life of other intangible assets are determined by the consideration of items as; useful life of asset, maintenance costs incurred to obtain expected economic benefit from assets and technical, technological or any other type of obsolescence.

The Group recognizes its software costs incurred under the intangible assets - intangible rights account and the qualifying expenses are added to software's initial costs and amortized over 3-15 years considering the useful life.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE PERIOD OF 1 JANUARY - 30 SEPTEMBER 2016**

(Unless otherwise stated amounts are expressed in thousands of Turkish Lira ("TL").)

ACCOUNTING PRINCIPLES (Continued)

XIII. EXPLANATIONS ON TANGIBLE ASSETS

Property and equipment is measured at its cost when initially recognised and any directly attributable costs of setting the asset in working order for its intended use are included in the initial measurement.

Subsequent to recognition, tangible fixed assets are presented in financial statements at cost less any accumulated depreciation and impairment loss, if any. Tangible fixed assets are amortized by using the straight-line method over their estimated useful lives.

Applied annual depreciation rates are as follows;

Buildings	: 2%
Vehicles and Fixtures	: 2% – 20%

Gains or losses emerging from the disposal of tangible assets are recognized in the profit or loss account as difference between net revenue of a related intangible asset and its net book value.

There is no tangible assets that are held for sale.

XIV. EXPLANATIONS ON LEASING TRANSACTIONS

Group's Transactions as a Lessee

Assets acquired under finance lease contracts are recorded both as an asset and a liability at the beginning date of the lease. The basis for the determination of these amounts is the lower of fair value of the leased asset or the present value of the lease payments. The direct costs incurred during a finance lease transaction are capitalized as additions to the cost of the leased asset. Lease payments include the financing costs incurred due to the leasing transaction and the principal amount of the leased asset for the current period.

Depreciation is calculated on a straight-line basis over the estimated useful life of the leased assets and if a diminution in recoverable value of the leased asset is identified, a provision for impairment is recognized. As of 30 September 2016, the parent bank does not contain any financial leasing transactions.

The Parent Bank records financial lease payments made for branches as equal expense amounts within the lease period.

Group's Transactions as a lessor

The Parent Bank, as a participation bank, acts as a lessor in finance leasing transactions. The Parent Bank presents finance leased assets as a receivable equal to the net investment in the lease. Finance income is based on a pattern reflecting a constant periodic rate of return on the net investment outstanding.

ACCOUNTING PRINCIPLES (Continued)

XV. EXPLANATIONS ON PROVISIONS AND CONTINGENT LIABILITIES

Provisions other than the specific and general provisions set for loans and other receivables and provisory liabilities are accounted in accordance with TAS 37 "Turkish Accounting Standard on Provisions, Contingent Liabilities and Contingent Assets Corresponding".

The Group provides provision in case of an existing liability (legal or implicit) as a result of an incident that took place in the past, there is possibility of disposal of assets that bring economic benefit and the liability is measurable. When a reliable estimate of the amount of obligation cannot be made, it is considered that a "contingent" liability exists and it is disclosed in the related notes to the financial statements.

For transactions that can affect financial structure, provisions are provided by using the existing data if they are accurate, otherwise by using the estimates.

As of the balance sheet date, there are no probable contingent liabilities resulting from past events whose amount can be reliably measured.

Contingent assets usually arise from unplanned or other unexpected events that give rise to the possibility of an inflow of economic benefits to the entity. Contingent assets are not recognized in financial statements since this may result in the recognition of income that may never be realized. Contingent assets are disclosed where an inflow of economic benefits is probable. Contingent assets are assessed continually to ensure that developments are appropriately reflected in the financial statements. If it has become virtually certain that an inflow of economic benefits will arise, the asset and the related income are recognized in the financial statements in which the change occurs.

There is no lawsuit for and against as of the date of balance sheet.

XVI. EXPLANATIONS ON LIABILITIES RELATING TO EMPLOYEE BENEFITS

a. Defined contribution plans:

Liabilities related to severance pay and right to leave calculated according to the regulations of the TAS 19 "Accounting Standard of Employee Benefits".

Under the Turkish legislation, Employment Termination Benefit payments are made in case of retirement or employment termination or resignation. According to the related legislation, depending on the status and position of the employee in the Bank and social security institution, Employment Termination Benefit Provision calculation is based on the final salary at the date of retirement or leave (to the extent that the payments and/or salary amount does not exceed the Employment Termination Benefit Provision ceiling).

Unused vacation liability is calculated based on number of unused vacation days which is calculated by subtracting used vacation days of all personnel from legally deserved vacation days.

The Group is not employing its personnel by means of limited-period contracts.

ACCOUNTING PRINCIPLES (Continued)

XVII. EXPLANATIONS ON TAXATION

a. Current Tax

"Corporate Tax Law" No. 5520 was taken into effect after being published in the Official Gazette dated 21 June 2006 No.26205. Many clauses of the "New Tax Law" are effective from 1 January 2006. According to the New Tax Law, the corporate tax rate in Turkey is payable at the rate of 20% as of 1 January 2006. The corporate tax rate is calculated on the total income of the parent bank after adjusting for certain disallowable expenses, exempt income (like affiliate gains) and other allowances. No further tax is payable unless the profit is distributed.

Dividends paid to non-resident corporations, which have a place of business or permanent attorney in Turkey or to resident corporations are not subject to withholding tax. Otherwise, dividends paid are subject to withholding tax at the rate of 15%. An increase in capital via issuing bonus shares is not considered as profit distribution and no withholding tax incurs in such a case.

Corporations are required to pay advance corporate tax quarterly at a rate of 20% on their corporate income. Advance tax is declared by the 14th and paid by the 17th day of the second month following each calendar quarter end. Advance tax paid by corporations for the current period is credited against the annual corporation tax calculated on the annual corporate income in the following year. Despite the offset, if there is temporary prepaid tax remaining, this balance can be refunded or used to offset any other financial liabilities to the government.

A 75% portion of the capital gains derived from the sale of equity investments and immovable properties held for at least two years is tax exempt, if such gains are added to paid-in capital in accordance with Corporate Tax Law or held in a special account under shareholders' equity for five years.

Under the Turkish Corporate Tax Law, losses can be carried forward to offset against future taxable income for up to five years. Losses cannot be carried back to offset profits from previous periods.

In Turkey, there is no procedure for a final and definitive agreement on tax assessments with tax authorities. Tax returns are required to be filled and delivered to the related tax office until the evening of the 25th of the fourth month following the balance sheet date and the accrued tax is paid until the end of the same month. Tax returns are open for 5 years from the beginning of the year following the balance sheet date and during this period the tax authorities have the right to audit tax returns, and the related accounting records on which they are based, and may issue re-assessments based on their finding.

FOR THE PERIOD OF 1 JANUARY - 30 SEPTEMBER 2016**

(Unless otherwise stated amounts are expressed in thousands of Turkish Lira ("TL").)

ACCOUNTING PRINCIPLES (Continued)

XVII. EXPLANATIONS ON TAXATION (Continued)

b. Deferred Tax

In accordance with TAS 12 "Turkish Accounting Standards Relating to Income Tax", the Parent Bank calculates and recognizes deferred tax for temporary differences between the bases calculated based on the accounting policies used and valuation principles and that calculated under the tax legislation.

Deferred tax is recognized on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit, and are accounted for using the balance sheet liability method. Deferred tax liabilities are generally recognized for all taxable temporary differences. However, deferred tax assets are recognized for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilized. Such assets and liabilities are not recognized as deferred tax liability or asset if the temporary difference arises from goodwill or from the initial recognition of other assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit.

The carrying amount of a deferred tax asset is reviewed at each balance sheet date. Carrying amount of a deferred tax asset can be reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to be applied in the period in which the liability is settled or the asset realized and reflected in the statement of income as expense or income. Moreover, if the deferred tax is related with items directly recorded under the equity in the same or different period, deferred tax is associated directly with equity.

The calculated deferred tax asset and deferred tax liability are presented as net in these financial statements.

The deferred tax benefit is not taken into account in profit distribution in accordance with the relevant circular of BRSA.

XVIII. EXPLANATIONS ON ADDITIONAL DISCLOSURES ON BORROWINGS

The Group records borrowings in accordance with TAS 39 "Financial Instruments: Recognition and Measurement". Borrowings, are recognized using the internal rate of return method in the following periods after the initial recognition. The Parent Bank has no borrowing that require hedging techniques for accounting and revaluation of debt instruments and liabilities representing the borrowings. There are no debt securities issued by the parent bank. The Parent Bank has issued borrowings as Sukuk issuances, this through its subsidiary Ziraat Katılım Varlık Kiralama A.Ş., these Sukuk issuances are provided to the qualified investors without being released through an IPO and the parent bank takes place during this operation as a fund user.

XIX. EXPLANATIONS ON ISSUANCE OF SHARE CERTIFICATES

Since the Group does not have issued shares, there are no transaction costs related to share issue in the current period.

ACCOUNTING PRINCIPLES (Continued)

XX. EXPLANATIONS ON AVALIZED DRAFTS AND ACCEPTANCES

Commitments regarding bill guarantees and acceptances of the Group are presented in the "Off-Balance Sheet" commitments.

XXI. EXPLANATIONS ON GOVERNMENT GRANTS

There are no government incentives utilized by the group as of the balance sheet date.

XXII. EXPLANATION ON CASH AND CASH EQUIVALENTS

Cash and cash equivalents are cash on hand, demand deposits and other highly liquid short-term investments with maturities of 3 months or less following the date of acquisition, which is readily convertible to a known amount of cash, and does not bear the risk of significant amount of value change. The book values of these assets represent their fair values.

For the purposes of the cash flow statement, "Cash" includes cash, effectives, gold, cash in transit, purchased cheques and demand deposits including balances with the Central Bank; and "Cash equivalents" include interbank money market placements and time deposits at banks with original maturity periods of less than three months.

XXIII. EXPLANATION ON SEGMENT REPORTING

Information about operating segments which are determined in line with TFRS 8 "Turkish Accounting Standard about Operating Segments" together with organizational and internal reporting structure of the Bank, are disclosed in Note VIII. of Section Four.

XXIV. EXPLANATIONS ON OTHER MATTERS

There are no necessary other issues except that accounting policy above-stated.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS
FOR THE PERIOD OF 1 JANUARY - 30 SEPTEMBER 2016**

(Unless otherwise stated amounts are expressed in thousands of Turkish Lira ("TL").)

INFORMATION ON FINANCIAL STRUCTURE (Continued)

I. EXPLANATIONS ON SHAREHOLDERS' EQUITY (Continued)

Information related to the debt instruments which will be included in the calculation of equity:

None.

Information on reconciliation between balance sheet balances and the items of the total capital and equity table:

The difference between Total Capital and Equity in the unconsolidated balance sheet mainly arises from the general provisions. In the calculation of Total Capital, general provision up to 1.25% of the credit risk is taken into consideration as Tier II Capital. On the other hand, in the calculation of the Total capital, improvement costs for operating leases followed under tangible assets in the balance sheet, intangible assets and related deferred tax liabilities, net book value of immovable properties that are acquired against overdue receivables and retained more than five years, other items defined by the regulator are taken into consideration as amounts deducted from total capital.

II. EXPLANATIONS ON THE CONSOLIDATED CURRENCY RISK

a) Whether the Parent Bank is exposed to foreign currency risk, whether the effects of this matter are estimated, whether limits for the daily followed positions are determined by the Board of Directors:

The Bank's policy is to avoid carrying significant position by means of foreign currency management. Therefore, the Bank is not exposed to significant currency risks. Risks are monitored by the currency risk tables prepared based on the standard method. Besides, VAR is calculated for daily foreign exchange position and reported to the related departments.

Moreover, dealer's positions and limits for foreign exchange transactions are under the authorization of the Board of Directors.

b) Hedge against foreign exchange debt instruments and net foreign exchange investments by hedging derivative instruments, if material:

None.

c) Management policy for foreign currency risk:

"Liquidity Gap Analysis" are prepared periodically in order to define liquidity and interest rate risks at US Dollar and Euro, which are mainly used by the Bank in its operations. Also, daily VAR analysis for following the currency risk and within the context of legal reporting, Foreign Currency Net General Position/Shareholders' Equity Ratio and Foreign Currency Liquidity Position are also monitored regularly.

d) Current foreign exchange bid rates of the Parent Bank for the last 5 business days prior to the financial statement date:

	USD	EUR	AUD	DKK	SEK	CHF	CAD	NOK	GBP	SAR	100JPY
26.09.2016	2.9745	3.3488	2.2486	0.4451	0.3452	3.0433	2.2358	0.3633	3.8428	0.7852	2.9320
27.09.2016	2.9790	3.3339	2.2573	0.4432	0.3417	3.0344	2.2245	0.3617	3.8524	0.7859	2.9390

**IV. EXPLANATIONS ON THE CONSOLIDATED LIQUIDITY RISK MANAGEMENT AND
CONSOLIDATED LIQUIDITY COVERAGE RATIO**

General principles of liquidity and financial emergency situation management and the related application procedures are considered in the scope of "Regulation for Liquidity Risk and Liquidity and Financial Emergency Situation Management".

Generally participation accounts concentration weighted for 1 month in both banking and participation banking sectors , collecting funds are longer than maturity perceived as an element of risk , in order to reduce the risk, attention showed to the liquidity of maturity group which is due for one month.

The Parent Bank performs "Remaining Maturity Analysis" for the observation of the maturity structure of the balance sheet, "Liquidity Gap" and "Structural Liquidity Gap Analysis" for the monitoring of the liquidity and between periods and Liquidity Stress Test for the evaluation of the Bank's liquidity and in the worst case scenario and the loss associated with it. Besides, in order to compare the Bank's level of liquidity risk with the sector, average remaining maturity balances of Bank-Sector and legal liquidity rates are monitored.

The Bank calculates and reports the liquidity adequacy ratio to BRSA on monthly consolidated and weekly unconsolidated basis in accordance with "Regulation for Regulation on Banks' Liquidity Coverage Ratio Calculation" issued in Official Gazette numbered 28948 and dated 21 March 2014. The liquidity coverage of the Bank is over the limit values specified in the mentioned regulation.

Also on the purpose of the liquidity risk management, risk limits and threshold determined as a part of risk appetite and daily monitored.

a) Basis for the current liquidity risk of the Bank and whether the necessary measures taken, limitations imposed by the Bank's Board of Directors on fund sources that can be used in payment of matured debts and can meet the immediate liquidity need:

The Parent Bank's fund resources consist of mainly participation funds. The bank is gathering funds in the name of participation accounts that the principal and predetermined yield are not guaranteed to paid back to the holder of account, and participation rates to profit or loss that results from funds to be operated are reflected to the related accounts.

The Parent Bank, TL and FC liquidity meets its needs mostly from the funds collected, internal and external sources that can be used in an emergencies in order to meet the liquidity requirements are monitored periodically, borrowing limits of the markets organized by the Bank and other banks, liquidity levels that can be met. The Bank manages liquidity risk within the regulations of Liquidity Risk and Liquidity and Financial Emergency Management.

INFORMATION ON FINANCIAL STRUCTURE (Continued)

**IV. EXPLANATIONS ON THE CONSOLIDATED LIQUIDITY RISK MANAGEMENT AND
CONSOLIDATED LIQUIDITY COVERAGE RATIO (Continued)**

**b) Payments, whether assets and liabilities are compatible with the rate of profit, wheather
the measurement of the probable effects of the actual inconsistency on profitability is done
or not:**

Payments, assets and liabilities and profit rates are monitored regularly by the management to track whether it is compatible or not and there is no dissonance whatsoever.

**c) The Parent Bank's internal and external sources to meet the short and long-term liquidity
needs, unused significant liquidity sources:**

Although the Parent Bank's assets average maturity is longer than collected funds, most of the securities, available for sale and held to maturity, make periodic coupon payment which is no longer than six months and monthly credit receivables payments provide cash flow to the parent bank.

d) Evaluation of the Parent Bank's cash flow rates and its sources:

The Parent banks main source is the participation funds, these funds are evaluated at other participation banks and loan placements. The banks most important cash inflows are receivables from banks and financial institutions and regular cash inflows from these institutions are seen as a factor that reduce the liquidity risk. Also monthly installment payments for loans are used to meet the Bank's resource needs.

Liquidity Coverage Ratio:

Liquidity coverage ratio, established in order to hold and provide premium liquidity asset stock which is adequately fulfill the Bank's net cash outflow, calculated within the scope of "Calculation of The Liquidity Coverage Ratio" regulation that was published by BRSA. Liquidity coverage ratio directly affected by Bank's asset, liability and potential cash inflow and outflow which is derived from off-balance sheet transactions with the level of liquid assets that can be realizable at any time and not mentioned to any collaterals.

The Parent Bank's premium liquidity asset stock; consists of debt securities which is not subjected to any collateral or repurchase agreement transaction and basically export from the Republic of Turkey's Treasury along with cash assets and care of Central Bank of the Republic of Turkey's accounts.

The Parent Bank's principal funding source represented by participation funds. Repurchase agreement transaction provided by funds and debts which comes from financial institutions take a part within the external participation fund debt items.

Managing liquidity risk effectively can be possible with preventing the concentrated liquidity asset and liability items. Participation fund, constitutes Parent Bank's main fund source, is provided from numerous customers.

Derivative transactions are included in calculation of the liquidity coverage ratio over the cash flows within the 30 day basis time slots.

Leverage ratio	8.9

(*) Amounts in the table are obtained on the basis of three-month weighted average.

VI. EXPLANATIONS ON SECURITIZATION POSITIONS

None.

VII. EXPLANATIONS ON RISK MANAGEMENT

Notes and explanations in this section have been prepared in accordance with the "Communiqué On Disclosures About Risk Management To Be Announced To Public By Banks" that have been published in Official Gazette no. 29511 on 23 October 2015 and became effective as of 31 March 2016. Due to usage of standard approach for the calculation of capital adequacy by the Bank, tables that need to be prepared within the scope of Internal Ratings Based (IRB) have not been presented.

10	Investments made in collective investment companies - %1250 weighted risk approach	-	-	-
11	Settlement risk	-	-	-
12	Securitization positions in banking accounts	-	-	-
13	RB ratings-based approach (RBA)	-	-	-
14	IRB Supervisory Formula Approach (SFA)	-	-	-
15	SA/simplified supervisory formula approach (SSFA)	-	-	-
16	Market risk	11,950	-	956
17	Standardised approach (SA)	11,950	-	956
18	Internal model approaches (IMM)	-	-	-
19	Operational Risk	131,473	-	10,518
20	Basic Indicator Approach	131,473	-	10,518
21	Standart Approach	-	-	-
22	Advanced measurement approach	-	-	-
23	The amount of the discount threshold under the equity (subject to a 250% risk weight)	-	-	-
24	Floor adjustment	-	-	-
25	Total (1+4+7+8+9+10+11+12+16+19+23+24)	5,066,919	-	405,354

(*) Due to the fact that the bank was established in the year 2015, operational risk is not calculated for 31.12.2015.

VIII. EXPLANATIONS ON HEDGE TRANSACTIONS

It is essential to be bordered with limits compatible with risk profile of risk levels and risk toleration so as to prevent to considerably affect from the negativeness that can occur while Parent Bank conducts its operations.

Risk limits are determined and approved by the Board of Directors by taking CEO, Audit Committee and Executives' offers.

Risk limits are determined compatible with risk levels, operations, size of products and services and complexity of the Bank. Limits are reviewed regularly, adapted according to changes in market conditions, Bank strategy and risk appetite and monitored cyclically.

In addition, derivative transactions are made by the Bank, TL and FC liquidity risks are limited due to the committed transactions.

SECTION EIGHT (*)

EXPLANATIONS ON INTERIM PERIOD ANNUAL REPORT

I. Chairman's Assessment

In the third quarter of the year 2016, FED authorities stated that the U.S economy started to gather strength and emphasized that strong signals are coming from the employment market and based upon those facts it will be appropriate to raise the interest rate gradually. This following development caused U.S Dollar to gain value over the other currencies, especially over the emerging market's currencies.

Because of the possibility of the interest rate hike of Federal Reserve System, there has been an exit from the developed country bonds and therefore negative interest process of developed country bonds' interest rates became positive again. Nevertheless, recession seen in the EU and Japan economies continues and caused wage incentives and monetary policies come to the fore again. English citizens' votes for the Brexit (England's exit from The European Union) in the referendum become a factor that increase the concerns in the England economy. Within this scope, in order to support the consumption and the financial markets, at the beginning of the third quarter Bank of England (BOE) stated that the interest on policy will be decreased by 25 basis point to 0.25%. Thus the interest rates are deducted to the lowest level in England's history. While the decision of England's exit from the EU was considered negatively by the global financial market, this situation is expected to cause further effect to the banking sector. Additionally the decrease of the profitability and the appearance of lately financial complications of some of the high scaled German banks which can affect the global economy has been a major factor that could pressure the global economy foremost the banking sector. Despite a slight recovery has been seen on the commodity prices, interest rate hike made by the Federal Reserve System and the weakness of the demand on the global economy gives less support to a permanent recuperation.

In the third quarter of 2016, as a result of the extraordinary situation, which was experienced in July, slightly affected the main economic indicators in Turkey but the rest of the year still remains promising. Meanwhile the unemployment rate was became to the two-digits again, it is expected to be reduced to one digit by the projected acceleration of the economic growth at the last quarter of the year. Stabilization is tend in the rising food prices this year despite the increase seen in the previous year, made a significant recovery from the perspective of the inflation. In accordance with the deducted course of the inflation and the simplification strategies made to the monetary policy Central Bank of the Republic of Turkey (CBRT) continued the interest rate cut in the third quarter of the year 2016.

Despite the geopolitical tension and declining global economy, in the second quarter of the year 2016 Turkey's economy grew 3.1%. Nevertheless, growth rate is quite below from the expectations. When the composition of the economic growth is observed, it can be seen that economic growth mainly consists of the consumption expenditures of the inhabitants and the final consumption expenditure of the government. On the other hand, as for the net export side an important affect to the growth could not be seen. Manufacturing industry keeps growing but in the second quarter of the year 2016 the growth slowed down compared to the first quarter. After the precautions and economic supportive steps taken from the government towards the extraordinary political situation occurred in July, it is expected that previously reduced funding cost rates to support raising in the rest of the year.

In the third quarter of the year 2016, stabilization tend in the rising food prices and the stable position of the Turkish Lira, made a significant decline to the inflation as expected. In the third quarter of the year, recovery was seen in the core inflation compared to the year before but nevertheless it was slightly above the expectations.

(*) Unless otherwise stated amounts are expressed in Turkish Lira ("TL") in section eight.

EXPLANATIONS ON INTERIM PERIOD ANNUAL REPORT (Continued)

I. Chairman's Assessment (Continued)

In the second half of the year 2015, Central Bank of the Republic of Turkey (CBRT) stated that there will be a simplification in the monetary policy within this scope with considering the inflation data CBRT made a 250 basis point discount on the loan interest rate. Because of the reducing funding costs of the banks, CBRT's interest rate cuts are expected to have a positive effect and contribute Turkey's growth both for the investments and consumption expenditures.

In the year 2016, because of the geopolitical risks and the political crisis between Russia and Turkey goals for tourism sector and export could not be reached. Nevertheless, foreign trade deficit kept shrinking during the year and main reason of this shrinkage the price has been the drop on oil and commodity prices. Besides due to the economic slowdown seen in the developed countries, there has been a fund transfer from the developed countries to the developing countries, and with the effect of the capital inflow from other countries there has been a significant improvement on the current account deficit of our country. There has not been any significant capital outflow from Turkey as a result of the extraordinary political developments.

As a result of maintaining the fiscal discipline and the proceeding to the interest expenditure recovery for the first nine months of 2016, an over the expectations performance has been reached within the budget realization. However, it is expected that the budget deficit will slightly increase in order to support the expenditures and subventions of the government to gain economic growth.

Banking sector is consistently growing providing the financial resources and saving channels needed for the economic growth of Turkey with the sector's high asset quality, raised return on equity rate and strong equity capital structure.

Ziraat Participation Bank, which was the first public bank to carry this title, after being established and being operated for more than a year, reached a performance above the expectations by following a rapid branching policy. As of the third quarter of the year 2016, the bank gained new customers to the Participation Banking sector by following a rapid branching policy at many points in our country. Aiming to extend its range of products with new solutions, Ziraat Participation Bank gains intend on answering to their both domestic and abroad clients' needs over the next period. Ziraat Participation Bank plans on extending the Bank's branch network, while maintaining the Bank's strong financial structure within the principles of "Participation Banking" and adding contribution to the Bank's service quality and to Turkey's economy.

EXPLANATIONS ON INTERIM PERIOD ANNUAL REPORT (Continued)

II. Assessment of General Manager

In the third quarter of the year 2016 in global markets, contrary to the expectations Federal Reserve System gave messages on one hand as interest rate hike on the other hand delaying on the process influenced developing countries negatively. As for domestic borders, we have risen powerful from 15 July coup attempt period by our nation's courage and penetration also with our government administrators' effective interferences. In spite of the credit note deduction by credit rating association Moody's, foreign investors have still been showing confidence in Turkey's main economic indicators. Even though our country had economic growth lower than the targeted rate in the last period, recovery is foreseen with the necessary precautions taken beginning from the last quarter of the year. In this period, stimulatory measures which aims to increase investments and production are put in the practice and steps are created to relax the financial markets. Positive responses are received of this measures from the point of markets and progresses are made towards stated targets in the context of Middle Ranged Program.

As of the third quarter of the year 2016, our total assets as Ziraat Katılım exceeded the level of TL 6 billion corresponded with our targets. We sustained our support to our domestic economy and real sector by having TL 4.5 billion cash, TL 2.5 billion non-cash reaching the level in total of TL 7 billion of fund using. In the same period, our fund scale of TL 3.8 billion consists of the collection by reaching broad customer range and significant amount of these funds are widespread base funds. In spite of ongoing infrastructure investments, Ziraat Katılım which has finished its first activity in June 2016 with profitability maintained its profitable and consistent growing in the third quarter with TL 124.4 billion profit.

We maintained our new product development operations consistent with our strategy of contributing to Participation Banking improvement. Within this scope we accomplished our first profit and loss project. As part of our operations which is to enable the access to financial SME's, we started World Bank based fund using.

Towards to our mission of Participant Banking reaching broader masses we have reached 41 branches within the country. Branching operations will be continued upcoming periods in the regions where suitable opportunities stands out. We also care about off-branch banking and in addition to our operating internet branch we want to provide complete service to our customers in digital world with engaging our mobile banking application.

As Ziraat Katılım as of May 2016 after the procedure of exportation the lease certificate total of TL 100 million with the exportation of the second lease certificate with the same amount in August we continued our operations to increase money and capital market scales.

In the third quarter of the year 2016, our new retail banking products "Financial Limited Debit Card" and "State Subsidy Housing Account" are available to our clients' use. With the individual financing supporting product "Financial Limited Debit Card" our clients can have up to 48 months maturity term for their product and service purchase and unlike the similar products this card has no allocation and card fees. With the "State Subsidy Housing Account" our clients who wants to acquire their first residence will have a contribution from the state by opening an account at Ziraat Katılım Bank.

Ziraat Participation Bank will continue to support the real economy and add value to Turkey in every condition with the understanding of "Growth Through Sharing".

Osman ARSLAN

EXPLANATIONS ON INTERIM PERIOD ANNUAL REPORT (Continued)

VI. Expectations After the 2016's III. Interim Period

In the third quarter of the year 2016, financial markets took shape with the steps of the monetary policy of the Federal Reserve System and European Central Bank and with the steps of the oil-producing countries' oil production. Carrying on with the recovery of the US economy, Federal Reserve System seems to have a possibility to go through with an interest rate hike. Therefore, bond yields of the developed countries which are testing their historical depths are rising and making the interest rate hike of the Federal Reserve System going up again. After the strong price reduction of oil prices at the start of the year, continuance of the recovery seen in US economy and oil producing countries' coming to an agreement on reducing the production amount, made the equilibrium point of the price per barrel of oil back to over USD 50 again. However because of the global economic growth expectations are still revised as downside, even if the oil production amount is reduced, recovery chance for the oil prices are still lowering. Signals of slowing down of the global economy are giving a negative impact to the commodity prices, thus to the commodity producing countries. Despite the economic problems seen at the start of the year in China economy is seemed to covered up a few towards the last quarter of year, growth rates are below the yearly average and the economic problems in the country are still in progress. On the other hand Japan Central Bank (BOJ) and European Central Bank (ECB) are increasing liquidity both on their hinterland and on global economy by keeping on with the bond purchase program and by keeping the interest rates low. However it is put on the words that expansionary monetary policy of the central banks because of the high debt level of the global economy and the unfair distribution of income will not be providing a long term sustainable growth. Therefore different economical models consumption providing sustainable growth based on competitive production and strong including the country debts' solution are needed.

In the second quarter of the year 2016, US economy has grown rapidly more than expected due to the recovery on the labor market. However, the US economy is far from catching up on the growth rate gained in the previous years because of the growth under 1.5% gained in the last three quarters. Despite this, Yellen, Federal Reserve System Chair of the Board of the Governors, recorded that an acceleration of the economic growth is expected in the second half of the year 2016 and in the last quarter of the year 2016 there may be enough economic circumstances for an interest rate hike. Due to the possible interest rate hike of the Federal Reserve System, US Dollar index keeps going up and in the meantime on the US Government 10 year bond yields side rapid increases are expected. As US Dollar gains value there is a negative effect for the export rate of the USA but Federal Reserve System authorities state that it is tolerable on the interest rate hike side. Especially catching up with the targeted core inflation rate and the consumer price index escalating up to 1.5% level supports Federal Reserve System authorities' argument. If the current geopolitical risks will not be taken into account, recovery on the labor market and catching up with the targeted inflation rate would give the Federal Reserve System a proper environment to make an interest rate hike in the last quarter of the year 2016.

EXPLANATIONS ON INTERIM PERIOD ANNUAL REPORT (Continued)

VI. Expectations After the 2016's III. Interim Period

While English citizens' votes for the Brexit (England's exit from The European Union) in the referendum has become a factor that increase the risk perception for the global economy, EU bond yields are at their historical low levels. Also Switzerland and Germany, who has a voice over the global economy, 10 year bond yields became negative. European Central Bank (ECB) did not change the deposit interest and left the asset purchase program amount at monthly EUR 80 billion at their third quarter meeting. However, Draghi, President of the European Central Bank, stated that when the effects of Brexit starts to occur they can evaluate additional wage incentives. On the other hand, after the vote for the Brexit, Bank of England (BoE) decreased the political interest rate by 25 basis point to 0.25%. Therefore in England interest rates are now at their historical low level. The Bank has raised the asset purchase target GBP 60 Billion to GBP 435 Billion in order to inject money to the market. Therefore because of the conclusion of the Brexit, European Central Bank (ECB) and Bank of England (BoE) had to take additional precautions. Yet the Federal Reserve System giving signals about an interest rate hike for the last quarter of the year, made the interest rates in the world escalate again and by conclusion Germany 10 year bond yields turned positive again. On the other hand decrease of the profitability seen in some of the largest banks in Germany and revealed diminution plans of these banks, concerns about these banks are increased. It is told that having a global sized hinterland and very high amount of derivative products, possible troubles of these banks during the next periods could have the possibility to affect the whole global economy deeply.

In conclusion, due to the desired economic boost not happening in Europe it is assumed that in this countries the wage incentives will continue and interests will stay low for an extended period of time.

At the beginning of the year 2016 the expectation of the negative effect in global demand due to the sighted deceleration tendency in China economy along with the hard sales happening in commodity prices, the World economy also is effected negatively by this conditions. Even though the support of Chinese government to economy is still proceeded, the expansion figures become distanced of the level of supporting global economy. In the second quarter even though the expansion figures of Chinese economy announced as 6.6% in content of expectations, it is the lowest expansion figures since the 2009 financial crisis. The biggest reason of the economic expansion downfall is shown as the loss of power in the industry sector. Even though manufacturing industry data's announced in the last period indicates recovery, it is not encouraging from the point of recapturing sustainable high growth numbers. In the upcoming year, reasons such as the deceleration signals in the global economy and the production of rock gas and oil from US with new technology, after the first quarter of the year moderate recovery is seen in the oil prices which drop below USD 25 per barrel. In the meantime the shrinking demand in global economy is not deep as it is feared being the main factor, organization of petroleum exporting countries deciding in principle to freeze production is the other factor affecting oil prices positively. However, the factors which are recovery in global demand not being in the desired level and the possible interest rate hike of FED in the last quarter of the year are seen as possible elements of oppression to oil prices.

EXPLANATIONS ON INTERIM PERIOD ANNUAL REPORT (Continued)

VI. Expectations After the 2016's III. Interim Period (Continued)

Third quarter of the year in Turkish economy as well as the developments generating from the dynamics of the economy, some extraordinary political developments played a significant role. Negative effects of the extraordinary situation that happened in July lasted a short time, as no significant loss of value in TL happening, there were no significant sales pressure happened in assets held in TL as well. The negative effects of encountered events to our country is defeated shortly with the systematic and hierarchy based functioning of publics' executive organs ongoing and the order of constitutional state operating. However, political developments aside, there has been some loss of value in TL in the end of the third quarter due to the increasing possibility of FED's interest rate hike and even it was limited fond outflows are seen. Also in the third quarter of the year, Central Bank of the Republic of Turkey (CBRT) continued interest rate cuts considering economic developments and downtrend in inflation. While the recovery is continued in foreign trade deficit and current account deficit, budget realization passed the objective as well.

Turkey which has grown beyond expectations in the first quarter of the year 2016, in the second quarter although it has grown lower than expected, Turkey achieved 3.1% level of growth. Countries such as China and India which has significant population aside, existence of the growth rates which are negative in lots of developing countries and in developed countries being very low shows that even Turkey's below expectations growth rate is encouraging from the aspect of Turkey's economy. In spite of the extraordinary political developments happening in our country, geopolitical risks happening in our borderline and the problems happening in global economy, due to some conditions such as economic administration making fast decisions, our economies building blocks being solid in contrary to other countries and lastly the experience of political authority on economic administration, Turkey economy can defeat any negative shock easily. Besides the interest cut of Central Bank of the Republic of Turkey (CBRT), the precautions taken by government to boost economy in the third quarter of the year are expected to accelerate the economic growth at the rest of the year.

Oil and natural gas which have significant share in Turkey's imports, having a hard fall in their prices has made a significant contribution on Turkey's foreign trade deficit shrink. Even though there has been some recovery seen in oil and natural gas prices beginning of the first quarter of the year, this condition did not have a serious impact on Turkey's import invoice. On the other hand the moderate increase in oil and natural gas prices, increased the demand for basic consumption goods produced in Turkey from oil producing countries which are Turkey's main import markets therefore Turkey's import is also affected positively from this situation. Despite the decreasing tourism receipts by the impact of political crisis happened with Russia and extraordinary political developments happened at the third quarter of the year, Turkey's current accounts deficit had its lowest level of the last five years with the ongoing capital entry from foreign countries.

In the third quarter of the year 2016 continuance of the low course on food prices and Turkish Lira being stable despite the interest rate cuts, caused an inflation drop parallel to the expectations. At the core inflation side, despite a recovery has been seen as against last year, the index stood a little above than expected. In the next period there may be pressure on the inflation rate due to frozen oil production amount of OPEC therefore increase of the energy prices. Besides the possible expected interest rate hike of the Federal Reserve System could invoke a risk over the value of Turkish Lira.

EXPLANATIONS ON INTERIM PERIOD ANNUAL REPORT (Continued)

VI. Expectations After the 2016's III. Interim Period (Continued)

In the third quarter of the year 2016 due to both problems experienced in the global economy and political developments like the Brexit, interest rate cuts are seen in all over the world. As of the Central Bank of the Republic of Turkey (CBRT), taking in consideration the interest rate cuts and the decrease trend of the inflation, continued to interest rate cuts in the third quarter of the year 2016. After the statement of going into simplification with the monetary policy performed during the second half of the year 2015, Central Bank of the Republic of Turkey (CBRT) made an interest rate cut for the loan rate by 250 basis points.

In the last quarter of the year 2016, while the possibility of the interest rate hike of the Federal Reserve System increases, due to both geopolitical risks and the political developments, an increase for the risks of the global economy has been seen. After the lowest levels seen on the developed countries bond yields, statements made from the Federal Reserve System increased the bond yields rate of the both US and the other developing countries. On the other hand the decision of OPEC about freezing the oil production amount caused a limited increase of the oil prices. It is a fact that gaining higher growth rates for the next periods for Turkey is possible with the decrease of the geopolitical risks and despite decreasing growth rates seen in the world but expecting a 3.2% growth rate for Turkey at the end of the year.
